

Pratik Patidar

Frontend Engineer (Next.js Focus)

Email: pratikpatidar7990@gmail.com Phone: +91-8269647990 LinkedIn: linkedin.com/in/pratik-patidar GitHub: github.com/pratik-patidar

Professional Summary

Frontend Engineer with 1.3 years of production experience building scalable, high-performance web applications. Strong foundation in React, JavaScript, and modern frontend architectures with demonstrated expertise in performance optimization and API integration. Quick learner with proven ability to adapt to new frameworks and technologies. Experienced in Git workflows, Agile methodologies, and maintaining high code quality standards.

Technical Skills

Frontend Technologies: React.js, JavaScript ES6+, HTML5, CSS3, Responsive Design, Mobile-first Development, Component Architecture, Performance Optimization, API Integration, DOM Manipulation

Backend Integration: REST API integration, Async/Await, Promise handling, API debugging

Version Control: Git, GitHub, GitLab, Pull Requests, Code Review, Merge Conflict Resolution, Branch Management

Project Management: Jira, Agile, Scrum, Sprint Planning, Story Points, Issue Tracking, Confluence

Development Practices: Code Reviews, Debugging, Performance Optimization, Lazy Loading, Code Splitting, Asynchronous JavaScript, Testing Frameworks (Jest, React Testing Library), Accessibility Standards

Tools & Platforms: VS Code, Cursor, Windsurf, Chrome DevTools, Postman, Figma, npm/yarn

Professional Experience

Frontend Developer | Mercanis (Client Project) Feb 2025 - Apr 2026 (1 Year)

Developed 8+ production features using modern JavaScript and component-based architecture for supplier management platform handling 500K+ daily users Built responsive dashboard with real-time order tracking and KPI analytics Optimized application performance from 4.2s → 2.7s load time (35% improvement) through code splitting, dynamic imports, lazy loading, and bundle analysis (Webpack Bundle Analyzer) Implemented multi-layer caching strategy reducing database load by 70%: browser cache (Workbox), memory cache (Redux), client-side (IndexedDB), and CDN (CloudFront) Built advanced filtering system with debounced search API calls reducing server load by 60% Achieved Lighthouse scores: Performance 92/100, Accessibility 95/100, Best Practices 93/100 Optimized bundle size from 4.2MB → 2.5MB (40% reduction) through code splitting, tree-shaking, and removing unused dependencies Conducted 50+ code reviews with detailed feedback on code quality, architecture, and performance best practices Managed Git workflows, including feature branches, pull requests, merge conflicts, and conventional commits Participated in agile ceremonies (standups, sprint planning, retrospectives) Collaborated with backend, QA, and product teams on feature design, API integration, and delivery

Education

Bachelor of Technology, Computer Science & Engineering Barkatullah University, Bhopal M.P. | 2020-2024 | CGPA: 7.89
