PROFESSIONAL SUMMARY

Frontend Engineer with 1+ year of production experience at Mercanis, building scalable supplier management UI with Svelte.js. Shipped 8+ features across multiple sprint cycles, led sprint planning and design collaboration, and conducted 50+ code reviews. Skilled in Git workflows, Jira-based project management, and Agile methodologies. Strong focus on code quality, performance optimization, and cross-functional collaboration.

TECHNICAL SKILLS

Frontend Technologies: Svelte.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Component Architecture, DOM Manipulation, Event Handling

Version Control & Collaboration: Git (Branches, Commits, Merge/Rebase, Conflict Resolution), GitHub/GitLab (Pull Requests, Code Review), Branch naming conventions, Conventional commits

Project Management & Workflows: Jira (Story Points, Sprints, Issue Tracking), Agile/Scrum methodology, Linking Git commits to Jira tickets, Sprint planning & standups, Story/Task/Bug/Epic categorization

Development Practices & DevOps: Code Reviews & Best Practices, Debugging & Problem Solving, Cross-functional Collaboration, Pull Request reviews and approvals, CI/CD Pipeline basics & deployment workflows

Core Concepts: Asynchronous JavaScript (Promises, async/await), API Integration & Data Fetching, State Management Fundamentals, Performance Optimization (Optimistic Updates, Lazy Loading)

PROFESSIONAL EXPERIENCE

Frontend Engineer | Mercanis

Apr 2024 - Apr 2025 (1 Year)

- Feature Development:** Shipped 8+ production features as both sprint lead (4-5 features) and supporting developer (3-4 features) using Svelte.js, including supplier profile and configuration pages for the AI-powered procurement platform
- Technical Debt & Maintenance:** Managed technical debt resolution and bug fixes for 2-3 sprint cycles, ensuring code quality and system stability

- **Sprint Planning & Design:** Led sprint planning participation, collaborated with design team using Figma to finalize UI/UX designs, and created comprehensive Confluence documentation for feature specifications and implementation guidelines
- **Code Review Leadership:** Conducted 50+ thorough merge request reviews, provided constructive feedback on code quality, tested features before approval, and mentored team on frontend best practices
- **Version Control & Git:** Managed feature branches, created/resolved pull requests, resolved merge conflicts, and followed conventional commit messages linking to Jira tickets
- **Project Management:** Tracked work in Jira using story points and sprints, participated in all agile ceremonies (daily standup, sprint planning, sprint review)
- Collaborated closely with backend, QA, and product teams to deliver features on schedule and resolve blockers through Jira
- Implemented performance optimizations including optimistic UI updates and lazy loading for enhanced user experience

Frontend Developer Intern | UNDIGICORE PVT LTD, UAE

Aug 2023 - Nov 2023 (3 Months)

- Developed web scraping program in React.js and WordPress
- Collaborated with graphic designer team to enhance UI/UX experience
- Provided technical guidance to teammates on frontend development
- Contributed to lead generation campaigns supporting business objectives

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Barkatullah University, Bhopal M.P. | 2020-2024 | CGPA: 7.89

Relevant Coursework: Data Structures & Algorithms, Web Technologies, Database Management, Software Engineering

ADDITIONAL INFORMATION

Languages: English, Hindi

Development Tools: VS Code, Cursor, Windsurf, Git, Chrome DevTools, Postman, Claude AI, Rovo (Jira AI Assistant), Figma, Confluence
