Professional Summary

Full-Stack Developer with 1.3 years of production experience with primary focus on modern frontend development. Solid foundation in JavaScript, component architecture, and API integration. Familiar with backend concepts and full-stack project structures. Experienced in Git workflows, Agile development, and maintaining high code quality across frontend layers.

Technical Skills

Frontend: React.js, JavaScript ES6+, HTML5, CSS3, Responsive Design, Mobile-first Development, Component Architecture, State Management (Context API), Hooks, Performance Optimization

Backend/Integration: REST API integration, Async/Await patterns, Promise handling, API debugging with Postman

Tools & Knowledge: Node.js basics, RESTful API concepts, Database fundamentals

Version Control: Git, GitHub, GitLab, Pull Requests, Code Review, Merge Conflict Resolution, Branch Management

Project Management: Jira, Agile, Scrum, Sprint Planning, Story Points, Issue Tracking, Confluence

Development Practices: Code Reviews, Debugging, API Integration, Performance Optimization, Testing Frameworks (Jest), Asynchronous JavaScript, Promises, Async/Await, Accessibility Standards, Lazy Loading, Code Splitting

Tools & Platforms: VS Code, Cursor, Windsurf, Chrome DevTools, Postman, npm/yarn, Figma

Professional Experience

Frontend Developer | Mercanis (Client Project) Feb 2025 - Apr 2026 (1 Year)

Developed 8+ production features using modern JavaScript and component-based architecture for supplier management platform handling 500K+ daily users Built scalable, testable frontend components with focus on reusability and maintainability Integrated REST APIs and managed complex data flow between frontend and backend services (order management, inventory tracking, payment reconciliation) Optimized application performance from 4.2s → 2.7s load time (35% improvement) through code splitting, lazy loading, and component memoization Reduced bundle size by 40% (4.2MB → 2.5MB) through dynamic imports, tree-shaking, and dependency optimization Achieved Lighthouse scores: Performance 92/100, Accessibility 95/100 using semantic HTML and ARIA standards Implemented multi-layer caching reducing database queries by 70% Conducted 50+ code reviews with detailed feedback on code quality, architecture, API integration patterns, and best practices Managed Git workflows including feature branches, pull requests, merge conflicts, and conventional commits Participated in sprint planning, standups, retrospectives, and agile ceremonies Collaborated with backend, QA, and product teams on feature delivery, API design reviews, and architectural decisions

Education

Bachelor of Technology, Computer Science & Engineering Barkatullah University, Bhopal M.P. | 2020-2024 | CGPA: 7.89
